Subject: If it weren't for Microsoft . . .

. . . the Department of Justice probably wouldn't even have computers! If there is just one personal computer, anywhere at the DOJ, that holds Microsoft hardware or software, then the DOJ should be hung out to dry! As bad as you think they are, Microsoft is still the best at what they do. If the competition can't keep up with them and their developments, then tuff luck.

I read today that Wal-Mart is now the largest company in the world. I suppose next week, the Department of Justice will want to shut them down as well.

Thanks.
